ತಿಪಟೂರಿನಲ್ಲಿ ನೀರಿನ ಕೊರತ

'ಬಡವ ಬಲ್ಲಿದರೆಲ್ಲರಿಗೂ ಅತ್ಯಾವಶ್ಯಕವಾದ ನೀರು ಸರಬರಾಜಿನ ವಿಚಾರದಲ್ಲಿ ತಿಪಟೂರಿನ ಪೌರಸಭೆಯವರು ಉದಾಸೀನರಾಗಿರುವುದು ತಂದಿ ವಿಷಾದ ರವಾಗಿದೆ "ಬೋರ್‌ವೆಲ್ ಗಳಲ್ಲಿ ನೀರಿನ ಸಮೃದ್ಧಿಯಾಗಿದೆ ನೀರೆತ್ತುವ ಯಂತ್ರ ತಪ್ಪೇ? ಯಂತ್ರ ಸರಿಪಡಿಸುವವರ ಉಸಾರ್ಥತೆಯೋ? ಲಭವಾ ಮಧ್ಯ ದಾಕ್ಷಿಣ್ಯ-ಪಕ್ಷಪಾತಗಳಿಗೊಳಗಾಗಿ ನೀರು ಎಲ್ಲಾ ಕೊಳವೆಗಳಿಗೂ ಬರುವುದಿಲ್ಲವೂ? ಈ ವಿಚಾರ ದೊಡ್ಡ ಸಮಸ್ಯೆಯಾಗಿದೆ

ಪೌರಸಭೆಯವರು ಈ ವಿಚಾರದಲ್ಲಿ ತಂಬಾ ಉದಾಸೀನರಾಗಿದ್ದಾರೆ ಓಟು ಪಡೆಯುವ ಕಾಲದಲ್ಲಿ ಸದಸ್ಯರು ತಿರುಗಿಸುತ್ತಿದ್ದ ಪ್ರದಕ್ಷಿಣಕ್ಕೆಗಳು ಈಗ ಮಾಯವಾಗಿವೆ ಪ್ರಜೆಗಳ ಸಭಗಬಡತನವಿಲ್ಲ ಈ ಕೊರತೆಗೆ ಕಾರಣವಾಗಿದೆ ಒಳ್ಳೆಯ ಯಂತ್ರಗಳನ್ನು ತರಿಸಿ-ಬೇರೆ ಸವರ್ಥರಾದ ಪೆಕ್ಯಾನಿಕ್ ಅವರನ್ನು ನೇಮಿಸಿ ಈ ಕೊರತೆ ಬಗೆ ಹರಿಸಬೇಕು

ಪೌರಸಭಾಧ್ಯಕ್ಷರು-ಸದಸ್ಯರು-ಅಧಿಕಾರಿವರ್ಗದವರು ಇವರೆಲ್ಲಾ ಸಹಕರಿಸಿ ಕಲಸ ಮಾಡಬೇಕು ಸರ್ಕಾರದವರಾದರೂ ಈ ಕೊರತೆಗೆ ಕಾರಣವೇನೆಂಬ ವಿಚಾರ ತನಿಖೆ ಮಾಡಿ ತಕ್ಕ ಸಾಕಯ- ಒದಗಿಸಲು ಪೌರಸಭೆಯವರಿಗೆ ಒತ್ತಾಯ ಮಾಡಬೇಕು ಎಂದು ನಾಗರಿಕರೊಬ್ಬರು ಬರೆಯುತ್ತಾರೆ

---

1) A citizen from Tiptur writes a letter to "the Visvakarnataka" that the distribution of water in the town is not adequate and fair. He adds that though the bore wells in the town are full to the brim supply is not uniform. He suggests that the municipality should take up this issue immediately and install a new machine if the machinery is bad, or appoint a good mechanic to look after the affairs

Improvement of water supply to Tiptur Town

Letter No A 6 C 1635/47-48 dated the 22nd April 1948 from the Deputy Commissioner, Tumkur District stating that the Sanitary Engineer, Bureau of Sanitary Engineering, has submitted an estimate for Rs 2,09,000 for improving the water supply to Tiptur Town, that the Municipal Council Tiptur, has resolved, at its meetings held on the 25th Jan 1948 and the 31st March 1948 that half the cost of the work be paid out of the Municipal funds from its closing balance and the other half may be paid by Govt as an outright grant, and recommending sanction of Govt thereto

---

1) The necessity for the work has been explained in the report accompanying the estimate and the President from M C Tiptur has also corroborated it for the Municipal quota ie for half the cost Rs 1,04,500/-

2) The financial condition of this M C is as per the budget estimates for 1947-48 is as follows:-

Opening balance	Rs 81,408
Receipts	Rs 165 860
Total	Rs 2,47,268
Expenditure	Rs 1,66,543
Closing balance	Rs 80,725-

(The investment is also taken into a/c) The Closing balance for 1947-48 is less than the M C's Estimate

Improvement of water supply to Zaptur town

3) The estimate may perhaps be scrutinised by the Chief Engineer for Irrigation in the first instance

COUNCIL NOTE

SUBJECT Scheme for the improvement of water supply to Tiptur Town

---

1 Tiptur is a Taluk Headquarter town and a growing business centre having a population of about 10,000

2 The existing water supply arrangement is from four bore-wells with a total yield of 10,000 gallons per hour The supply has to be increased to 1,50,000 gallons as against 1,00,000 gallons, the maximum quantity that can be had from the existing arrangements

3 In order to improve the supply, three additional bore-wells have to be sunk The air compressor and the pumping machinery are old and require replacement as also the entire distribution system For all these improvements an estimate for Rs 2,09,000/- has been prepared by the Sanitary Engineer, Bureau of Sanitary Engineering The plan and estimates have been scrutinised and accepted by the Chief Engineer for Roads and Buildings

4 The Tiptur Town Municipal Council has considered these proposals and agreed to bear half the estimated cost from its opening balance and investment account and requests that the Government may make a grant to the Municipality equal to the other half of the expenditure The Deputy Commissioner, Tumkur, has recommended sanction to the two requests

5 When the papers were referred to ~~him~~ he the Financial Secretary has stated that the financial condition of this Municipality is not sound The closing balance (of last year and the present opening balance) and the funds in investment being just sufficient to cover the municipal share of the cost, the Municipality will have no funds for other requirements when these amounts are appropriated He states that the present proposal may be approved, subject to the condition that unless the local body improves its financial

position, further improvement works in respect of this Municipality cannot be considered

6 The Minister for Local Self Government agrees with the above opinion of the Financial Secretary The question having been ordered to be disposed of at a meeting of the Council by the Chief Minister, who is in charge of the duties of the Dewan, this note is circulated to the Ministers

7 The points for consideration and orders are

1) Sanction to the estimate for Rs 2,09,000/- for the improvement of water supply to Tiptur town, and

2) Sanction of a grant equal to half the cost i e , Rs 1,04,500/- to the Tiptur town Municipal Council from out of the water supply grants of Rs.7½ lakhs provided in the State Budget for 1948-49

Final note by the Minister for Local Self-Government

Subject — Scheme for the improvement of water-supply in Tiptur Town

Tiptur is a Taluk headquarter town and a growing business centre, having a population of about 10,000

2 The existing water supply is from four borewells with a total yield of 10,000 gallons per hour This is inadequate, and the supply has to be increased to 1,50,000 gallons as against 1,00,000 gallons, the maximum quantity that can be had from the existing arrangements

3 Three additional borewells have to be sunk in order to improve the existing supply of water The air compressor and the pumping machinery are old and require replacement, as also the entire distribution system For all these improvements, an estimate for Rs. 2,09,000/- has been prepared by the Sanitary Engineer, Bureau of Sanitary Engineering The plans and the estimates have been scrutinised and accepted by the Chief Engineer for Roads and Buildings

4 The Tiptur Town Municipal Council have agreed to bear half the estimated cost of Rs. 1,04,500/- from out of the municipal funds and they request the Government to make a grant of Rs 1,04,500/- to the municipality to meet the other half of the cost

5 The Financial Secretary has agreed to these proposals, subject to the condition that the municipality should improve its financial position

6 The question was considered at a meeting of the Council held on the 4th April 1949 when it was agreed that the estimate for the work for Rs. 2,09,000/- may be sanctioned and that half this amount viz , Rs. 1,04,500/- may be given as a grant by the Government to the Municipality The Government share of the expenditure will be met from out of the allotment made under water supply grants in the current year's state budget

7 I solicit His Highness's gracious sanction to the above resolution of the Council

R Channegowda

Bangalore,
13th April, 1949

MINISTER FOR LOCAL SELF-GOVERNMENT

Submitted to His Highness

Sir,

Subject Water difficulties in Tiptur Town

With reference to your letter No L 2795 dated 19thx August 1947 inviting my reference to an article which appeared in 'Visvakarnataka' (daily) dated the 6th August 1947 re improper distribution of water in Tiptur Town, I have the honour to - state that soon after I saw the article in the paper I called for a report from the President, Town Municipal Council, Tiptur as a similar article appeared in 'Deshabandhu' also The President in his report dated 12th August 1947 states that it is due to the increase in the house connections and also due to the smaller capacity of two overhead tanks Action has already been taken for the construction of one overhead R C C tank of - 10,000 gallons and the Sanitary Engineer has been requested to examine the question I request, that the Sanitary Engineer may kindly be requested to expedite the preparation of a detailed - estimate and plan to facilitate the proper distribution of water supply in Tiptur Town

A copy of the report received from the President is - enclosed for kind perusal

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District

Tiptur Town Municipality

No HC 7/47-48
Encls One

Office of the President,
Town Municipal Council Tiptur

Date 12th August 1947.

To

The Deputy Commissioner,
Tumkur District,
Tumkur

Sir,

With reference to your letter No A o C 247/43-48 dated 7th August 1947 forwarding a cutting from Deshabhandhu dated 3-8-47 under the heading [illegible] and calling for a report thereon, I have the honour to state that the water is being supplied to the Town and Extension by means of Air Lift Plant from from Bore-wells The present distribution of water is as follows

(1) One overhead tank of 24,000/- gallons of capacity installed near L F Hospital supplies water to the town proper

(2) Another Overhead tank of 3000/ gallons capacity installed near High School supplies water to the Electric Colony and High School premises

(3) The water to the Western Extension is supplied by pumping directly from the water works by laying out 3" main pipes with necessary side distributions thereon

The distribution arranged as above, was intended primarily to supply water to about fifty public fountains and about 100 private house connections But there are 311 private house connections at present Owing to smaller capacity of 2 overhead tanks and smaller diameter distribution pipes, grant of fresh house connections were stopped for a few days as the public began to complain that selected few are enjoying water facilities and that others are deprived of the benifits xx etc, fresh private house connections are even now being granted subject to the condition that they do not raise any objection in case there is inadequate supply of water The yield from 4 Bore wells is about 10,000 gallons per hour The compressors are worked from 6 A M to 1 P.M and 3 P M to 6 P M and again from 9 P M to 11 P M ie for about 12 hours per day Though the supply of water from the existing borewells is quite sufficient and abundent, the real difficulties are due to installation of small capacity of over head tanks and small dimeter distributions system will have to be thoroughly overhauldd and remoddlled suitably

Though there is a great difficulty in securing required materials at present for improving distribution pipes, certain improvements to the distribution pipes in the fort locality by relaying 4 " 3" and 2" C I pipes as against 3" 2" and 1½ " have been made recently

The Sanitary Engineer, Bureu of Sanitary Engineering, Bangalore, who was requested to examine the question of construction of one overhead R C C tank of 10,000 gallons of capacity and relaying of the distribution mains, visited the town on 17-5-47 and suggested comprehensive improvement Scheme for water supply (a copy of which is enclosed for kind reference Accordingly he has been requested to prepare and send a detailed estimate and plan on the lines suggested by him so as to enable this Municipality to take up further needful action in the matter Further the Municipal Council have resolved at their meeting held on 31-7-47 that they should go on deputation in the matter In this connection I request your goodself/to kindly address the Sanitary Engineer in the matter of expediting the despatch of a

detailed estimate and plan for the comprehensive scheme for the water supply of the Town as suggested by him in his notes of inspection xx in No 1231 ∅ dated 20-6-47

I have the honour to be,
Sir,
your most obedient servant,

President,
Tiptur Town Municipality

Copy of Notes of Inspection by the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore dated 17th May, 1947 on the Tiptur Town Water works

---

The water works was inspected with the President and some of the Municipal Councillors

2 The town Pumping set which has the capacity of 9000 gallons per hour is worked 8½ hours in the day and supplies 9000 x 8½ i e , 76,500 gallons The extension pumping set which has the capacity of 3000 gallons per hour is worked for eight hours in the day and supplies 24000 gallons Thus the total quantity of supply is 100500 gallons per day which for the present population of 10000 works out to a moderate per capital of 10 gallons

3 The yield from the four bore wells is about 10000 gallons per hour The comprehensors are worked from 5 A M to 1 30 P M and 3 P M to 6 P M i e for 11 ½ hours Ahainst the receipt of 10000 gallons per hour the - pumpage is 120000 gallons per hour Hence it will not be possible to work both the pumps, e g , to the extension and to the town continuously The compressors will have to be worked for extra number of hours than the - pumps to fill up the suction pit which acts as a balancing reservoir

4 Owing to the rapid increase in the population especially at the - High School extension and another on the other side of the Railway - Extension, improvements to the water supply both in the matter of - increased supply and adequate improvements to the distribution is necessary

5 There is an existing elevated tank of 24000 gallons capacity in the - Town The Municipal Council desired that this tank should be removed and erected at the High School extension and a new tank of 1,00,000 gallons should be constructed at the highest point in the new extension to command the whole of the town It was found during inspection that it would ~~xxxx~~ be not advisable to remove this elevated tank It may be left as it is to serve as a balancing tank to feed the ploclities around The President also agreed to this proposal A separate tank of 75000 gallons capacity may be constructed at the highest point on the other side of the railway - line Another overhead tank of 20000 gallons capacity may be constructed for the extension near the High School

A comprehensive improvement scheme for the water supply to Tiptur will have to comprise of the following items

1 Replacement of the existing air compressors which is commanding four borewells by a higher capacity one if need be as the existing compres has serviced its time and will require heavy replacement of - spares

2 Two additional bore wells, one for the town and one for the extension and allied machinery and Air Compressor

3 A separate bore well with an Air compressor may be parcelled out for the extension

4 The population of the extension is likely to be about 5000 and hence about 50000 gallons will be the ultimate quantity required

A 20000 gallons over head tank for the extension near the High School Extension and a 75000 gallons capacity tan for the extension and old town on the other side of the railway line

5 The present distribution system will have to be thoroughly overhauled and remodelled suitable The rising main from the water works to the over head tank proposed on the other side of the railway line will have to be suitably designed (increased to 6" to 8 ") so that one submain may feed the existing 24000 gallosn capacity tanl The existing 1½ 2" and 2½" sub main will have to be replaced by 3" and 4" C I main

p t o

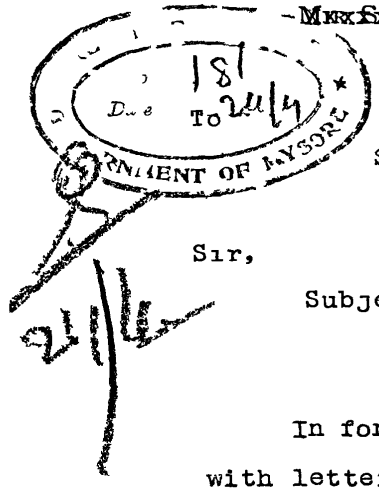
DEPUTY COMMISSIONER,
TUMKUR DISTRICT, TUMKUR



Syed Abdul Aleem, Esq , B A ,
Secretary to Government of Mysore,
Revenue Department, Bangalore

Sir,

Subject -
Improvement of water supply
to Tiptur Town

In forwarding herewith the correspondence ending with letter No H C 21/47-48 dated 31-3-48 from the President, Town Municipal Council, Tiptur, on the above subject, I have the honour to state that the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, has sent wp an estimate for Rs 2,09,000/- together with a plan for the improvement of the existing water supply to Tiptur Town The report of the Sanitary Engineer enclosed to the estimate explains the various provisions of the scheme

The Municipal Council, have, at their meetings held on 25-1-48 and 31-3-48, resolved that half the cost of the estimate may be paid out of the closing balance of the Municipal Funds and the other half, being paid by Government, as grant Copies of resolutions are enclosed

The closing balance at the credit of the Municipality as it stood on 1-4-48 is Rs 1,18,917-11-7, including the amount of Rs 1,01,319-14-0 invested in Savings Bank Account The receipts and expenditure of the Municipality during the years 45-46 and 46-47 are noted below -

	Receipts		Expenditure
45-46	65,587/-	P	93,473/-
46-47	1,36,147/-	Rs	1,52,568/-

It is seen therefrom that both the receipts and

15

and expenditure are increasing year by year and that the expenditure is more than the income of the Municipality. Tiptur is a growing Town. The President has also submitted a proposal of surface drainage scheme of Tiptur Town involving an expenditure of Rs 1,23,600/- Necessary proposals will be sent up to Government on receipt of further particulars in the matter fromthe President, Town Municipal Council, Tiptur

The financial condition of the Municipality does not seem to be sound when compared to the several improvements which the Municipal council desire to make The Municipality has just enough to meet viz , Rs 1,04,500/-, being the municipal quota required for improvements to the existing water supply scheme

As the Municipality has not got sufficient funds at its credit, to meet the entire cost of improvements proppsed and that sufficient water facilities have to be made available to the public immediately, I request you kindly to move the Government to accord sanction to the grant of Rs 1,04,500/- and to meet the other half out of the closing balance of the Municipality at an early date so that the work may be taken up immediately

I have the honou to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Tumkur District

Subject Improvement of Water Supply to Tiptur Town

I have the honour to state that the Sanitary Engineer, Bureau of Sanitary Engineering Bangalore, who was requested to prepare and send a detailed estimate and plan for improvement of the existing water supply in this town, has prepared and sent an estimate amounting to Rs 2,09,000/- for a comprehensive scheme for improvement of the water supply facilities The report of the Sanitary Engineer enclosed to the estimate explains the various provisions in the Scheme.

The Municipal Council who considered the estimate prepared, for improvement of water supply to Tiptur Town at their meeting held on 25- 1- 1948 resolved that half of the cost of the extimate may be paid out of the Municipal funds and the Government be requested to sanction the other half as Government grant A copy of the resolution passed on the subject is herein enclosed for reference The estimate has also been countersigned for the Municipal quota of Rs 1,04,500/-

The Air Compressor and the Pumping machinery require immediate replacement having worked continueously for over 18 years The capacity of the existing steel reservoir is very small and it is not sufficient to meet the increased demand of the town Moreover it cannot feed the localities which are at a higher level The entire distribution system have to be changed as the capacity of them is insufficient to feed the town The water difficulties are being keenly felt by the public I therefore request that Government may kindly be moved to accord sanction to the countersigned estimate and to the payment of Government Grant prayed for by the Municipality

The estimate, plan and report of the Sanitary Engineer, accompany

Subject Improvement of water supply in Tiptur Town

Sir

I have the honour to invite kind reference to letter No A6 C 1635/47 dated 22-4-48, addressed to you by the Deputy Commissioner, Tumkur District, Tumkur on the subject noted above, and to state that orders of Government passed on the matter has not been communicated to this office so far

The existing pumping mechinaries of the water works require immediate replacement, as they are at work continuously for over 18 years and as ~~xxxx~~ several parts of the pumping mechinaries are worn out The capacity of the existing steel reservoir is ~~nearly~~ two small and it is not sufficient to meet the increased demand of the town The water difficulties are being keenly felt by the public ~~xxxxxxxxxx~~ Sufficient water fecilities have to be made available to the public immediately

I therefore request that orders of Government obtained to the proposal of the Municipal Council may kindly be communicated to this office at an early date, so that the work may be taken up immediately

Yours Faithfully

READ:-

Correspondence ending with letter No.A6.C.1635/47-48 dated 22nd April 1948 from the Deputy Commissioner, Tumkur District on the subject of the improvement of water supply in Tiptur Town.

2. Unofficial Note No.47 dated 12th August 1948 of the Chief Engineer for Roads and Buildings in Mysore.

ORDER NO: L 12377-81 PW-61-48-47

Dated, Bangalore, the 26 4 49

The existing water supply in Tiptur Town is from four bore wells with a total yield of 10,000 gallons per hour. This is inadequate and the supply has to be increased to 1,50,000/gallons as against 10,000/gallons, the maximum quantity that can be had from the existing arrangements.

Three additional bore wells have to be sunk in order to improve the existing supply of water. The air compressor and the pumping machine are old and require replacement, as also the entire distribution system.

The Deputy Commissioner, Tumkur District, submitted for sanction an estimate for Rs.2,09,000/- for all these improvements prepared by the Sanitary Engineer in April 1948 together with the resolution of the Tiptur Town Municipal Council dated 25th January 194 and 31st March 1948, approving of the above estimate and agreeing to meet half the cost of the work from out of the Municipal Funds and requesting the Government to meet the other half of the cost. The estimate for Rs.2,09,000/- has been scrutinised by the Chief Engineer for Roads and Buildings.

In view of the urgent need for improving the water supply to Tiptur Town, Government are pleased to sanction the estimate for Rs.2,09,000/- (Rupees Two lakhs and nine thousand) for the work and to sanction half the amount viz., Rs.1,04,500/- (Rupees One lakh four thousand and five hundred only) as an out right grant to the Municipality towards this work. This amount will be met from out of the allotment under water supply grant in the current year's State budget. The other half of the expenditurewill be met by the Tiptur

Town Municipal Council from out of the closing balance for the current year.

The Chief Engineer for Roads and Buildings and the Deputy Commissioner, Tumkur District, are requested to take all necessary further action in the matter and see that the work is taken up immediately and completed expeditiously.

In General Secretary to Government.

Correspondence ending with letter No.A6.C.1635/47-48 dated 22nd April 1948 from the Deputy Commissioner, Tumkur District on the subject of the improvement of water supply in Tiptur Town.

2. Unofficial Note No.47 dated 12th August 1948 of the Chief Engineer for Roads and Buildings in Mysore.

ORDER NO: L 12347-81 Tu 61-48-47

Dated, Bangalore, the 26-4-49

The existing water supply in Tiptur Town is from four bore wells with a total yield of 10,000 gallons per hour. This is inadequate and the supply has to be increased to 1,50,000/gallons as against 10,000/gallons, the maximum quantity that can be had from the existing arrangements.

Three additional bore wells have to be sunk in order to improve the existing supply of water. The air compressor and the pumping machine are old and require replacement, as also the entire distribution system.

The Deputy Commissioner, Tumkur District, submitted for sanction an estimate for Rs.2,09,000/- for all these improvements prepared by the Sanitary Engineer in April 1948 together with the resolution of the Tiptur Town Municipal Council dated 25th January 194 and 31st March 1948, approving of the above estimate and agreeing to meet half the cost of the work from out of the Municipal Funds and requesting the Government to meet the other half of the cost. The estimate for Rs.2,09,000/- has been scrutinised by the Chief Engineer for Roads and Buildings.

In view of the urgent need for improving the water supply to Tiptur Town, Government are pleased to sanction the estimate for Rs.2,09,000/- (Rupees Two lakhs and nine thousand) for the work and to sanction half the amount viz., Rs.1,04,500/- (Rupees One lakh four thousand and five hundred only) as an out right grant to the Municipality towards this work. This amount will be met from out of the allotment under water supply grant in the current year's State budget The other half of the expenditurewill be met by the Tiptur

Town Municipal Council from out of the closing balance for the current year.

The Chief Engineer for Roads and Buildings and the Deputy Commissioner, Tumkur District, are requested to take all necessary further action in the matter and see that the work is taken up immediately and completed expeditiously.

for General Secretary to Government.
